CISCO
It's time to test your system
Order #: 0059-4224-8625

> Your appointment is confirmed! An order confirmation containing important exam day information has been sent to: chararam@outlook.com

What's next?

Run a system test

We need to verify that the computer and internet connection you plan to use on exam day meet the minimum requirements for online testing. It'll just take 5 minutes to run:

Equipment and internet connection checks

Exam simulation

Cisco Systems, Inc. Policies

Admission Policy

EXAM SECURITY VIOLATIONS

Any misconduct listed below will lead to your exam being terminated, loss of your exam fee and could result into a permanent enforcement ban against your Cisco Certification profile.

- Do not leave the view of the webcam once the exam has started or walk away from the testing area. (In other words, you are not allowed to leave for restroom breaks, to answer the door, or walk away for any other reason.).
- Do not talk out loud during your exam or cover your face in anyway.
- Do not take any photos of your monitor BEFORE, DURING or AFTER your exam; this includes your score report. This is a violation of Cisco's NDA.
- Do not use your phone during your exam, unless instructed by the proctor.
- Do not allow any other person in the room while testing.
- Pen and paper is not allowed during online testing. You may use the digital whiteboard for notes.

Please note that you are required to have a clean and clutter free workstation. During check in, the Proctor will ask you to perform a room and desk scan using your webcam and will inspect any materials near your workstation.

Please note this exam is proctored in English only. There is not an option for local language proctoring at this time.

Before the exam:

- Visit the [Cisco Online Proctoring](#) page and review information on exam policies and procedures, system requirements, and the System Test.
- Complete the required System Test from the same computer and in the same location you'll be using on exam day. *Corporate firewalls often cause issues while trying to take your exam. Please consider taking your exam in a setting without a corporate firewall.*
- Review the identification requirements below

Please be prepared to show one (1) valid form of unexpired, Government-issued personal ID. The Government-issued ID must have your signature and must have your photo.

The name on the registration must match the names on the Government issued ID exactly. Please verify that your name listed on your confirmation email matches your identification. If your identification is not considered valid, you will not be permitted to complete your exam and are unlikely to receive a refund.

Examples of acceptable identification:

- Passport
- Driver's license
- Non-US Military ID (including spouse and dependents)
- Identification card (national or local)
- Registration card (such as green card, permanent resident, visa)

Please note that we are **unable** to accept the following ID's for an online proctored exam.

- Renewal forms with expired ID's
- Government-issued name change documents with Government ID

By law, certain IDs must not be photocopied, digitized, or captured on camera. Because of this, Pearson VUE cannot accept restricted IDs (including but not limited to U.S. military or certain secure access IDs) as identification for online testing.

On exam day:

- We recommend logging into your account **30 minutes early** to start the check-in process and to allow for any troubleshooting
- This allows optimal preparedness but does not guarantee an early admittance or start time
- If you are more than 15 minutes late after your scheduled exam time, you will be unable to begin your exam and you are unlikely to receive a refund

To check into your exam:

- Select Check-in to start exam on your confirmation, reschedule or reminder emails
- https://home.pearsonvue.com/cisco/onvue
- View your upcoming appointment
- Follow the on-screen prompts to complete the check-in process
- You will need to complete check-in before you can start your exam

Reschedule Policy

To reschedule your online proctored exam, access your online Pearson VUE account to reschedule your exam up until the scheduled start time of your appointment. Failure to reschedule before your appointment time or failure to appear for your appointment will result in the forfeiture of your exam fee.

Cancellation Policy

To cancel your online proctored exam, access your online Pearson VUE account to cancel your exam up until the scheduled start time of your appointment. Failure to cancel before your appointment time or failure to appear for your appointment will result in the forfeiture of your exam fee.

Additional Information

Please note that your "appointment length" may include time for non-scored sections such as surveys or tutorials. The appointment length does not necessarily reflect the total amount of time allotted for the actual exam. The majority of Cisco exam appointments include an additional 15 to 20 minutes for surveys and tutorials.

Breaks are not allowed during the exam for any reason. If you leave your computer during your exam the proctor will end your session and you will be unable to continue testing.

Once passed, a candidate must wait a minimum of 180 days before taking the same exam with an identical exam number. Candidates may only take a beta exam once. Candidates who fail an exam must wait a period of five (5) calendar days, beginning the day after the failed attempt, to retake the exam. For example, if a candidate tests on Tuesday, he or she may test again no sooner than the following Monday. For more information on Cisco's exam policies, visit: www.cisco.com/web/learning/exams/policies.html .

As a Cisco test taker, you deserve a fair and secure testing experience. Please report any suspicious behavior that you observe to Cisco Certification Exam Security Customer Portal. Examples of such behavior

include receiving help or copying from another test taker, taking a test for someone else, copying or disclosing exam content, or using notes or unauthorized aids. Thank you for your assistance in helping to prevent and detect unfair test practices.

Age Requirements and Policies Concerning Minors

Minors are individuals between 13-17 years of age who, with parental or legal guardian consent, may take tests and if passed, receive certification. For any person participating in a location that requires by law a lower minimum age for entry into such programs, then the minimum age limit for that person will be the stated minimum required age. Cisco reserves the right to impose additional restrictions to comply with local data protection laws.
